INJUNCTION GOES TO CIRCUIT COURT

Western Freight Rate Case is Certified to Higher Tribunal.

OVER SCORE OF ROADS ENJOINED

Shippers are Said to Be Divided on the Issue of Rates Boost.

St. Louis, June 1.—The temporary restraining order which federal Judge Dyer issued last night at Hannibal, Mo., prohibiting twenty-five railroads from advancing freight rates, was today certified to the United States circuit court here. Processes against the defendants were prepared and will be served by United States marshals in the districts where the different roads have their general offices. Under orders of Attorney General Wickersham, an expediting certificate providing for a speedy determination of the issues was filed.

Railroad officials say it is too early to express opinions and explained they would prefer to keep silence for a while. The action of the government was a surprise to them.

It was pointed out that the attack on the railroads is unique in one respect. It is the first time in which the commercial interests of the chief western cities are not proceeding in full harmony; in fact several of the strong organizations are siding with the carriers.

St. Louis Not Fighting.

The St. Louis league of business men is not antagonizing the proposed increase in freight rates, but in other cities opposition has developed.

The most important active forces in opposing the increase in rates are said to be the Missouri Manufacturers' association, of St. Louis, and the Illinois Manufacturers' association. It was stated today that it was not the purpose of the railroads to increase all rates in this territory today. Only commodity rates were to have been advanced, which apply almost solely to freight the general public is not directly interested in.

INJUNCTION IS GRANTED.

Hannibal, Mo., June 1.—Twenty-five western railroads were temporarily restrained last night by United States District Judge David P. Dyer from enforcing or making a general advance in interstate freight rates. The injunction was granted on a petition filed by the United States government on the allegations that the advances in on the allegations that the advances in agreement, without competition and in violation of the Sherman anti-trust act.

The petition was filed in the United States circuit court at St. Louis yesterday afternoon and was brought here to present to Judge Dyer. It states that unless such a restraining order be issued the advances would become effective at midnight last night, to the grave harm and injury of the people of the United States.

The petition was presented by Edwin P. Grosvenor, of Washington, special assistant to the attorney general, and Frederick N. Judson, of St. Louis, acting as special counsel. It was signed by George W. Wickersham, attorney general; William S. Kenyon, assistant attorney general, and Charles A. Houts, United States district attorney.

WILL ASK A REHEARING.

Washington, June 1.—With the probability of two more members being on the supreme court next October, the railroads between the Mississippi and the Missouri rivers and shippers in the central freight territory are said to be preparing to ask for a rehearing of the Missouri river rate cases, decided yesterday in favor of the interstate commerce commission. The decision was supported by only four members of the court and if a rehearing could be had that number would not be sufficient to overrule the district court, which held the rates invalid.

This order of the court putting the reduced rates into effect will be held thirty days to allow the railroads to file an application for a rehearing.

STOCK MARKET IS ON THE TOBOGGAN

Serious Slump Follows the Western Freight Rate Injunction.

ROADS ENJOINED SHOW IT WORST

But Entire Line is Very Distinctly Affected by the Order.

New York, June 1.—There was another break in prices of stocks today when the market opened, as a further effect of the granting of an injunction against the proposed advance in western rates. Stocks of the railroads immediately affected by the injunction were the weakest. St. Paul running off 5 points, Union Pacific 3, Atchison 2¼, Denver and Rio Grande, Northern Pacific, Southern Pacific, Canadian Pacific, Great Northern preferred, Illinois Central, New York Central, B. & O., Amalgamated Copper and Consolidated Gas 1 3-8 to 2 and many other stocks a point or more.

Supporting Orders Help.

Supporting orders and short covering steadied prices immediately after the opening, but offerings continued heavy and prices broke again.

The severe decline in the first hour resulted from heavy selling of both accounts. Many of the leading commission houses were reported as having sold long stock and the way prices crumbled bespoke hurried liquidation. A significant feature of the decline was the selling of brokerage houses with western connections. There was evidence of support in certain stocks, but rallies throughout the early session were fitful and hardly sufficient to overcome the selling movement.

Prices Steadily Go Down.

Liquidation continued to pour into the market and prices yielded steadily before the stream without effect from the occasional supporting orders. The railroads which are enjoined from putting advanced freight rates into effect today still led the decline, but the whole list was acutely weak, other stocks being offered to protect the holdings of these which were more difficult of sale. The rapid decline in prices impaired margins and forced out some accounts. Before noon there had been shown such declines as 7¼ in St. Paul, 4⅝ in Union Pacific and Reading 3½ in Atchison, 3⅝ in Baltimore and Ohio, 3⅝ in Wabash Preferred, and three or more in Southern Pacific, Northern Pacific, Canadian Pacific, Minneapolis, St. Paul and Sault Ste. Marie, Illinois Central, Louisville and Nashville, Missouri Pacific, Denver and Rio Grande, Amalgamated Copper and Consolidated Gas.

As the afternoon progressed the market gave increasing evidence of an oversold condition. Pressure of liquidation was materially lightened and any dip in prices brought out an eager demand from the bears to cover shorts. Rallies from the low level of 1 to 2 points became quite numerous and Reading rebounded 2⅝ and Baltimer and Ohio 2¼.

WOULD RATHER BE A BOODLER THAN A LIAR

At Same Time Holtslaw Cannot Understand Why He is Either.

Iuka, Ill., June 1.—"I'd rather be known as a boodler than a liar," said State Senator Daniel Holtslaw, in an interview at his home today, speaking of his confession to accepting a bribe of $2,500 as a legislator. "Maybe," he continued, "I took the money because I saw everyone else doing the same thing.

"I don't know—I don't understand," he said, answering the question why, he a man who could command a quarter of a million dollars in his family, would stoop to a bribe.

"All I want is to sink out of sight," he said. "I know the indictment charging me with perjury was a bluff, and it did not frighten me. But when they asked me whether I was paid for voting for Senator Lorimer I had to tell the truth."

A daughter of Holtslaw followed the interviewer out of the house. Breaking down, she exclaimed: "To spend years of toil in building a name and then to destroy it at one blow. Oh, how could he do it? My mother is prostrated. We have not said a word to father about the trouble, for it would break his heart. He could not have been in his right mind."

Herschel Holstlaw ascribed his father's downfall to the corrosion of politics upon an honest character, and this opinion is the majority of the residents of Marion county, which Holtslaw, with his three banks and one thousand acres, ruled like a baron.

SIX FISHERMEN DROWNED.

St. Pierre, June 1.—Six fishermen lost their lives when the brigantine Mauve, of Cancale, France, struck on Point Blanche, while entering St. Pierre in a thick fog early today. Most of the crew were in their berths when the Mauve struck. The nineteen survivors reached shore after most trying experiences. The Mauve had been fishing on the Grand Banks and was heading for St. Pierre with eleven hundred quintals of fish.

OPINION DIVIDES ON MR. ROOSEVELT

Britishers Deeply Stirred by Big Stick Speech at Guildhall.

NEWSPAPERS GIVE HIM OPEN HINTS

Think He Has Showed Both Lack of Tact and of Manners.

London, June 1.—Mr. Roosevelt's speech at Guild hall yesterday continued today to be the sensation of the newspapers throughout the country. The editorial comment upon his startling utterances concerning British rule in Egypt was influenced as a rule by partisanship. The conservative press defends the conclusions drawn by the American statesman while the liberal papers oppose his deductions with equal seriousness.

But outside the questions of fact set forth the newspapers almost without exception challenge the propriety of a foreign guest of the city criticizing the colonial policy of the empire.

Of the comments of the conservative press, the following are samples:

The Globe: "It was not the time, nor the place, nor was the ex-president the person, to display this particular form of interest in the business of his hosts."

Lets Him Down Easy.

The Pall Mall Gazette: "The unconventional is justified only by success. If he prefers realities to the proprieties where vital interests are concerned, so does the judgment of the British people."

The Standard: "That he should lay hands on one of the nation's private and particular political subjects seemed a social crime not far from sacrilege, but in reading the speech carefully there is found nothing of which to complain."

Of the "liberal" papers the Westminster Gazette questions the necessity and disagrees with the conclusions of the speech.

The Star says that "Mr. Roosevelt should learn that he is not exempt from the customs of civilized nations."

Mr. Roosevelt passed today quietly. He visited the National gallery during the forenoon and had luncheon with several prominent men in the Irish nationalist party.

WILL ORGANIZE THE WEST VIRGINIA MINERS

One Big Firm Offers to Provide Facilities for Doing It.

Indianapolis, Ind., June 1.—For the protection of the operators of the bituminous coal mines of Ohio, Indiana and Illinois who pay the scale of wages demanded by the United Mine Workers of America, against competition of lower priced non-union mined coal from West Virginia, a plan was submitted today to T. L. Lewis, president of the United Mine workers, for the organization of the West Virginia field.

The O'Gara company, of Chicago, through its labor commissioner, W. R. Russell, former president of the United Mine Workers of Illinois, offered a tract of forty acres in West Virginia as a site for a union camp, from which the organizers of the United Mine Workers might open their campaign. The O'Gara company will unionize its mines as a precedent.

"Heretofore it has never been safe for union organizers to go into West Virginia coal fields," said Mr. Russell, "but our company will be able to protect them if our plan is accepted."

WILL SUCCEED CARPENTER.

Norton, to Be Secretary to President, Dines With Taft.

Washington, June 1.—The nomination of Fred W. Carpenter, secretary to the president, to be United States minister to Morocco, was ordered favorably reported to the senate today by the committee on foreign relations. Assistant Secretary of the Treasury Charles D. Norton, who is expected to succeed Mr. Carpenter as secretary to the president, breakfasted with President Taft this morning, and it is understood that he formally accepted the place.

RESUME TRIAL OF POLICE HEAD.

Cleveland, O., June 1.—The second day's trial of Frederick Kohler, suspended chief of police known throughout the country as the "Golden Rule Chief," was resumed before the civil service commission today. Kohler was suspended last week, when charges of misconduct, intoxication, and immorality were filed with the mayor. In yesterday's hearing thirteen witnesses brought out three occasions when, they alleged, the chief was under the influence of liquor.

RATE BOOST HALTS.

Chicago, June 1.—Rates on coal from Illinois and Indiana mines to Chicago and to points basing on Chicago which were to be effective today have been postponed until July 25. The change proposed in the rates was a flat advance of ten cents a ton.

ALLEGED BRIBER MUST FACE COURT

Judge McSurely in Chicago Refuses to Quash Indictment.

LORIMER DEMOCRAT MUST STAND TRIAL

Court Riddles Claims of Defense—Burke Busy in Springfield.

Chicago, June 1.—Lee O'Neil Browne, leader of the democratic minority in the lower house at Springfield, must stand trial on the charge of bribing State Representative Charles A. White to vote for Wm. Lorimer for United States senator. This much was assured today when Judge McSurely overruled the motion of the defense to quash the indictment against Browne.

U. S. Forest, of counsel for the defense, entered an exception to the ruling. He also sought a postponement of two weeks in placing Browne on trial, but was again overruled, the court setting June 6 as the date for beginning the trial.

While this argument was on State's Attorney Wayman demanded that Browne be arraigned at once. Mr. Forest interposed sharply: "Mr. Browne pleads not guilty."

Riddles Contention of Defense.

The court room was crowded during the proceedings. Browne sat unmoved near his attorneys. Judge McSurley's opinion occupied 2,500 words, which he read at the rate of one hundred words a minute. He riddled the contention of the defense that the case is one for the federal courts, and likewise sustained the jurisdiction of the Cook county courts. He explained that this ruling is without prejudice to the venue of the Sangamon county courts, where an indictment has been brought against State Senator Broderick, charging that he bribed State Senator Holtslaw to vote for Lorimer.

It was the contention of the defense that the promise to pay for a vote (alleged to have been made at Springfield) and not the payment of the money (alleged to have occurred in Chicago) constitutes the crime of bribery. In both the White and the Broderick cases it is charged that the promises to pay were made at Springfield, while the transfer of money took place in this city.

The argument of the defense was that bribery of legislators voting to elect a United States senator is not an offense against the state but against the federal government and that the federal law provides no punishment. Judge McSurely said he believed it to be a plea unique in the history of the courts.

Constitutional Points.

In disposing of this question the judge went back to the constitution, saying:

"The importance of this claim is recognized at once and, so far as I am aware, has never heretofore been made in any court. A claim so contrary to the general impression of what the law is in this regard, and so sweeping in its consequences, should only receive most careful attention, but I believe should not receive assent, unless compelled thereto by convincing reasoning and authority. I make no apology for admitting that my conclusion on this point is largely one of first impression. I do regret that time did not permit full investigation and ample argument to justify that impression

Argues the Claim.

"The claim is advanced that when members of both houses meet in joint assembly to vote for a senator of the United States congress, they cease to become a state legislature and become a wholly different body. It is therefore important to inquire into who or what elects the senators of the congress of the United States. The constitution says (Article 1:)

"'The senate of the United States shall be composed of two senators from each state, chosen by the legislature thereof, for six years.'

"The federal statute entitled 'congress,' section 14 (election of senators), reads, 'The legislature shall proceed to elect a senator in congress,' and again, more than once the statute contains the words 'the legislature shall elect,' etc. This alone would seem sufficiently clear to permit of no further question. But it is said that the members of the legislature, when voting to elect a senator, cease to be state officers and more properly federal officers."

Quotes Gray's Opinion.

On this point Judge McSurely quoted the decision of Justic Gray in Fitzgerald vs. Green, 134 U. S. 377:

"Paraphrasing the language of Justice Gray," said Judge McSurely, "we may say: Although the legislature when electing a United States senator is acting under and pursuant to the constitution and statutes of the United States, they are no more officers or agents of the United States than are presidential electors, when acting as electors of the president and vice president, or the people of the state when acting as electors of representatives in congress."

On this point raised by the defense attacking the jurisdiction of the Cook county court, declaring that promise to pay money for a vote constitutes bribery, and not the consummation of that promise by the actual paying of the money, the court declared that the payment of money for a vote constitutes bribery.

No Prejudice to Other Courts.

In the case at bar, it is alleged that Lee O'Neil Browne promised to pay representative White $1,000 to vote for William Lorimer for senator, and that $50 of this sum was subsequently delivered to White in Chicago. This rule is without prejudice to the jurisdiction

EDWIN GOULD, JR.

FINAL VOTE ON THE RAIL BILL NEAR IN SENATE

LaFollette Amendment for Physical Valuation is Voted Down.

Washington, June 1.—Senator LaFollette's amendment to the administration railroad bill to provide for the ascertainment of the physical valuation of the property of railroads engaged in inter-state commerce, was defeated in the senate today by a vote of 25 to 30.

It was expected that the disposition of this amendment would permit a final vote on the bill before adjournment today. The thirty votes against the provision were cast by republicans. Of the twenty-five affirmative votes, fifteen were cast by democrats and ten by republicans.

The defeat of the LaFollette provision was followed by the presentation of one by Senator Simmons, requiring such physical valuation of the property involved in cases before the interstate commerce commission. Senator Bailey presented a proposed amendment designed to make effective the "commodities clause" provision of the Hepburn rate law.

Simmons Amendment Beaten.

The Simmons amendment was defeated by a vote of 28 to 30. Explanations were made by Senator Beveridge that he had been called from the senate chamber on official business just prior to the vote on the LaFollette amendment, and by Senator Brown that he had endeavored to get a pair for his colleague, Senator Burkett, but had been unable to do so.

Senators Beveridge, Bourne and Hughes, who were not present when the vote was taken on the LaFollette amendment, voted for the Simmons provision. Senator Nelson, who voted against the LaFollette provision, voted for the Simmons amendment, and Senator Jones, who voted for the LaFollette amendment, voted against the Simmons amendment.

The Burton amendment to the railroad bill to authorize the interstate commerce commission to fix the minimum rates that may be charged by railroads, which compete with water routes, was adopted by the senate 53 to 1, the negative vote being cast by Senator Frye.

The senate adopted an amendment to the railroad bill by Mr. Simmons, prohibiting the inter-state commerce commission from granting a lower charge for a long than a short haul when made to destroy water competition.

TWENTY-FIVE LOSE LIFE IN QUARRY EXPLOSION

Workmen Caught in Death Blast in Cement Plant at Ogden, Utah.

Ogden, Utah, June 1.—Twenty-five workmen were killed in an explosion today in a quarry of the Union Portland Cement company at Devil's slide, Utah, thirty miles east of Ogden.

The explosion blew down the telegraph and telephone poles and the news came in brief messages sent by courier.

Most of the killed are Japanese and Greeks who made up the quarry gang of 75 to 100 men. The injured are reported to number a score or more.

MADRIZ ARMY IS IN FULL RETREAT

Thoroughly Trashed by Estrada Forces at Bluefields.

HUNDREDS KILLED; MANY CAPTURED

Movement Against Rebels Has Collapsed After Disasters.

Washington, June 1.—The Nicaraguan government's army, under Gen. Lara, which has been in front of Bluefields for several weeks, has been defeated by the insurgent troops of Gen. Estrada and is now in full retreat.

This information reached the state department today in a dispatch from Commander Gilmore of the United States gunboat Paducah, now at Bluefields. Commander Gilmore said General Lara's army now consisted of about three hundred men. This force had been in the vicinity of Bluefields for a fortnight, and for the past week had made repeated attempt sto capture the city from the revolutionists under General Estrada.

All their efforts met with failure and General Estrada's forces succeeded in killing several hundred of General Lara's soldiers, besides capturing over two hundred of the government troops.

It was reported by deserters from General Lara's force, who came into Bluefields and surrendered to the insurgents, and also by the soldiers captured by the Estrada forces, that the government's soldiers were in a starving condition.

INSURGENTS' CHIEF REPUDIATES A HOT PLAN

Says Rebels Will Not Go in a Body to Welcome the Roosevelt.

Washington, June 1.—Representative Crey, of Wisconsin, one of the insurgent republicans, has a plan for all of the "insurgents" to go to New York and meet Col. Roosevelt upon the latter's arrival. Only two or three of the "insurgents" would say today that they expected to be in New York on the date of Roosevelt's arrival and these admitted they had not conferred with their colleagues about the trip.

"We certainly shall do nothing of the kind," said Representative Marison, of Kansas. "We have not lost our senses—political or otherwise."

SAIL FOR THE SOUTH POLE.

British Antarctic Expedition Under Captain Scott is Started.

London, June 1.—The British antarctic expedition in the steamer Terra Nova, sailed today for New Zealand. Captain Scott had announced December, 1911, as the date for his arrival at the south pole. Captain Scott and Lieutenant E. R. Evans, second in command, claim that they have the best equipped expedition that ever started on a polar search.

The officers and scientists number crew of twenty-seven, are all picked men.

MORE EVIDENCE IN LOUISVILLE CRIME

Missing Foot of Kellner Child Found Near the Church Furnace.

PROVES ATTEMPT TO CREMATE BODY

Rewards for Arrest of the Murderer Likely to Be Increased.

Louisville, Ky., June 1.—With the identity of the dismembered body found Monday in a dark cellar beneath St. John's parochial school definitely established as that of little Alma Kellner who has been missing since December 8, the attention of the police is now centered upon the apprehension of the murderer.

Will Raise the Rewards.

Rewards aggregating $2,000 have been offered already, and tonight the city council will be asked by Mayor Head to add another thousand. Governor Willson is expected to increase these sums as soon as a request is made upon him by the county judge here. The board of public safety has instructed the police and detective departments to spare no expense in the pursuit of the murderer.

The police do not believe that Joseph Wendling, the missing French janitor, under suspicion, has returned to France, but think he may be found in some French settlement in this country or Canada. His wife, held under a charge of accessory to the murder still resolutely declares that she knows nothing about the crime.

Mother Ignorant of Truth.

The truth has been kept from Mrs. Fred F. Kellner, mother of Alma, that the body was horribly mutilated when found. Since Monday she has remained within the seclusion of her room on the border of collapse. She cannot understand why the body was not brought to the house or how there should be any doubt about the identification. Failing to receive a ready answer regarding the latter, she asked, "Why can't you tell by the scar on her nose?"

About a year ago the little girl cut her nose by a fall from roller skates.

Find Missing Foot.

Continuing their search for evidence, the police today came upon the missing foot of the Kellner child in a pile of ashes near the big furnace in the basement of the church. This supports the theory that the murderer first tried to burn the body of the victim.

A child's undervest, woven of mixed wool and cotton, stained with blood and rolled up and pinned, was found in a small closet used for storage purposes under the steps leading up to the main entrance of the church.

Hundreds of people pass in and out of the church at this main entrance daily.

In police court today attorneys for Mrs. Wendling asked for her discharge on the ground that there was no law compelling the holding of a person as an "accessory after the fact," where a wife is involved. The matter will be argued tomorrow.

HURLED A CAN OF BEANS AT CROWN PRINCE

Singular Assault is Made on the Heir to German Throne.

Berlin, June 1.—There was a commotion among the royal party returning from the annual joint review of the Berlin and Potsdam garrisons at Templehof field today, when a man who had followed at a distance, hurled a missile at Crown Prince Frederick William. The object missed its mark and fell harmlessly at the feet of a policeman. Upon investigation it was found to be an ordinary tin can, such as is used for the preservation of fruit and vegetables and was filled with uncooked beans.

The party was about to enter the palace when the incident occurred and for a moment it was believed a bomb had been thrown. The police seized the assailant, who proved to be a Russian named Abraham Fienweiss, a resident of this city. It is thought he is not responsible for his action.

RAILWAY RAISES WAGES.

Topeka, Kan., June 1.—Announcement was made today that all the employes of the Atchison, Topeka and Santa Fe Railroad company receiving less than $80 per month have been granted an increase of 10 per cent. in wages, effective today.

THE WEATHER.

Washington, June 1.—Indiana—Fair tonight and Thursday; moderate northwest winds.

Ohio—Partly cloudy and continued cool tonight; Thursday fair, warmer; moderate northwest to west winds.

Lower Michigan—Cloudy tonight and Thursday; continued cool, moderate northwest winds.

Illinois—Fair and continued cool tonight and Thursday.

INTEREST RATE IS ON AN UPWARD TREND NOW

Big Companies Indicate Advance on Land Loans to 6 Per Cent.

Developments of the past few days indicate that 5 per cent. money will soon be a thing of the past. Fort Wayne representatives of a number of the big insurance companies, which have been loaning their surplus on farm securities, have within the past few days been advised that in the future no application for a loan will be considered at a lower rate of interest than 6 per cent.

It is predicted that all the others will speedily take similar action, and the result is likely to be largely increased business for the trust companies, which have steadily maintained a 6 per cent. rate. It has been possible heretofore to secure on choice farm property a loan at 5 per cent. with commission added, and many thousands of dollars of the insurance companies are invested in this manner. It is said the advance to the 6 per cent. rate is due to the largely-increased demand for money which comes as the result of the development of new territory in other sections of the country.

* * *

The Old National bank today inaugurated the plan of mailing to its patrons a monthly letter on general trade conditions, together with a business forecast for the ensuing month. The outlook as viewed by the Old National's expert, is encouraging. "In our opinion," it says, "general conditions will be no worse than they are today, and they should slightly improve during the summer months. The careful business man will keep things constantly moving, and while getting ready for a good fall business, will take care not to over-expand."

ALLEGED BRIBER MUST FACE COURT

(Continued From Page One.)

of the Sangamon county (Springfield) courts. On this point, Judge McSurely said:

"Nothing herein said is intended to be understood as denying the Sangamon county courts jurisdiction over certain phases of this or any other similar transaction, if any there be. Upon that question I express no opinion. I am certain that what is here before the court in this indictment is properly within the jurisdiction of the criminal court of Cook county."

BURKE WILL HAMMER AWAY.

Springfield, Ill., June 1.—State's Attorney Edmund Burke arrived from Chicago today and signified that his mission in search of additional evidence was successful. "We are going to keep pounding away," said the prosecutor. Mr. Burke expects for today, at least, to devote his energies to witnesses already subpoenaed. Three representatives are to be questioned and attention will also be given, it is expected, to the desk and seat contract in which Senator Holtslaw figures and which was the point on which the Iuka senator's confession was obtained. Mr. Burke was jubilant over obtaining proof of a deposit slip recording that Senator Haltslaw deposited $2,500 in the state bank of Chicago last June. This he regards as strong evidence of the truth of Holtslaw's confession, which involves Senator John Broderick.

Activity in the legislative inquiry before the Sangamon county jury centered today in the expected questioning of Representative H. D. McCollum, democrat, of Louisville, Ill., regarding the reasons which impelled him, a democrat, to vote for Wm. Lorimer for United States senator. McCollum has told the jurors that he voted for Lorimer for political reasons, that he knows nothing of any financial dealings in connection with the senatorial vote nor any other legislative matter. Representative F. B. Staymates, democrat, who also voted for Lorimer, is scheduled today to be questioned before the grand jury and Representative McMackin, of Salem, a republican, who voted for Lorimer, is also to appear.

ADDITIONAL SOCIETY

Mrs. W. W. Bogart and daughter, Constance, and Mrs. Bogart's mother, Mrs. Blakely, have returned from a six weeks' visit at Kingsville, Houston and other cities in Texas.

About twenty-five women of Emmaus and other Lutheran churches gathered this afternoon at the home of Mrs. August Freese, of West Creighton avenue, and sewed for the Lutheran hospital. Their husbands joined them for supper and will spend the evening socially.

The Orchis club, which was recently organized, will hold its regular second meeting at the home of Mrs. Hoch, of Fairfield avenue tomorrow afternoon. The members are Mesdames. Condon, Ed Bennigen, W. White, Cutshall, Garva, Ed Wehmeyer, Roberts, Phelps, Robinson, Bennett, Berdleman and Hoch.

More than twenty young people enjoyed the Junior Christian Endeavor party given by Miss Lucile House and Miss Rogler at the home of Miss Rogler yesterday afternoon. Although it was too cold for a porch picnic as had been planned, there was plenty of room in the house, and all had a good time.

Miss Edith McCague gave a dinner at 6 o'clock on Sunday at her home in Ossian in honor of guests from this city, who were Misses Grace Snyder and Grace Reitschler. There were present on this happy occasion Gus White, Lloyd Feem, Will and Marion McCague and Mr. and Mrs. Smith and son, Harold, of Bluffton. A delightful time was enjoyed by all.

Mrs. C. Close, of East Lewis street, was given a pleasant surprise on Monday afternoon in honor of her birth anniversary. A number of suspicious looking baskets which the ladies carried, proved to hold a tempting supper. An orange given Mrs. Close proved on opening to be filled with silver which the guests told Mrs. Close contained the wherewithal to get a birthday gift for herself. A very pleasant time was enjoyed by all who were present.

Mr. and Mrs. Anthony Gerard, of Lillie street, left today for Harrisburg, Pa., to spend a week with their daughter, Mrs. Herbert Lucas. In a few days Mrs. Gerard, accompanied by her daughter, will go to Montreal, where they will spend a month visiting there and at St. Scholastique and St. Columbin, Quebec. It will be the first visit in fifty-eight years that Mrs. Gerard has made to the home of her childhood.

Miss Laurina North, the little daughter of Mr. and Mrs. Joe North, of 1110 East Creighton avenue, celebrated her seventh birthday anniversary last Saturday by helping to entertain a number of her school friends at a pretty party. Games were played, music was listened to and a paper donkey without any tail caused lots of fun as the children tried to pin one to it. Many pretty gifts were presented to Miss Laurina and she won the prize in the donkey game. The guests were Rosella Himbert, Florence Schaffer, Mildred Schaffer, Marion Neuman, Helen Medker, Luella Klusuth, Violet Schaeffer, Maria Klingenberger, Rosella Klingenberger, Louis North, Elmer Lenz and Sport North. Mrs. Julia North, assisted by Grandma North, served the children a delicious supper.

SENATE WILL NOT BE IN HASTE.

Washington, June 1.—The senate will not enter hastily upon an official investigation of the bribery charges against Senator Lorimer, of Illinois. The committee on privileges and elections, which will decide whether there shall be an investigation at all, has no formal charges before it at this time, and the members are inclined to wait until something definite is filed in Washington.

The committee would be disposed to act, it is said, even upon the filing of the charges made by the Chicago Tribune if the corporation presented its case and stood behind the charges. What the committee would prefer to do would be to wait until some one of the several cases in the Illinois courts against members of the legislature had been concluded.

FUNERAL NOTICES.

Hilleke.—Funeral services for Mrs. Eliza Hilleke will be held Saturday morning at the Cathedral. OPENING IS POSTPONED.

Clear Lake Hotel Will Inaugurate Season Sunday, June 12.

Messrs. Rickel and Wilcox, proprietors of the Clear Lake hotel, at Clear Lake, Ind., have postponed the opening of that popular summer hostelry from June 5 to June 12. The inclemency of the weather has made it seem advisable to put off the opening until the middle of the month, when it is felt that warm weather will have fully arrived and completely settled. The Clear Lake hotel is looking for a lively season at that resort, which is greatly patronized by Fort Wayne people.

WILL KEEP UP THE FIGHT.

Canal Advocates Disappointed, But Not Discouraged at Outcome.

Charles S. Bash, who has been one of the most active workers for the Toledo-Chicago deep waterway by way of Fort Wayne, declared today that despite the adverse action of the present congress the effort would not be abandoned.

"We are naturally disappointed at the action of the committee in cutting out the provision for the survey," said Mr. Bash today, "but we are not discouraged, and we shall work just as energetically for the improvement as ever. The canal will eventually be built."

WOMAN IS DRIVING AUTO ACROSS COUNTRY

Miss Blanche Stuart Scott, on Long Trip, Reaches City Tonight.

Miss Blanche Stuart Scott, who is driving an automobile trans-continental tour from New York to San Francisco, will arrive in Fort Wayne late this afternoon and will spend the night in Fort Wayne. Miss Scott is due to reach the Anthony hotel between 5 and 6 o'clock this afternoon, and will leave tomorrow morning for Toledo.

Driving an Overland car, Miss Scott left New York on Monday, May 16, and has covered approximately 1,600 miles to date. She has made no effort at a time record, but has taken side trips to all points of interest along the route. Reaching Cleveland, Miss Scott concluded to attend the auto races at Indianapolis on Monday and changed her route in accordance therewith. She went south to Columbus, where she was received by Governor Harmon at the capitol on Saturday morning, and next drove to Dayton, where the Wright brothers gave an exhibition in her honor Saturday afternoon at 4 o'clock. At Indianapolis she was escorted into the city by about seventy-five motor enthusiasts and at the speedway was given many congratulations upon the favorable progress of her plucky undertaking.

Miss Scott has no ambition to be the only girl who can drive the trip, and does not seek to break any records. Her object is declared to be merely to see and enjoy the historical and geographical points of interest and to demonstrate to the feminine world the possibilities of taking in a motor such a trip without the guidance or assistance of a man. She has absolute faith in her ability to make all the motor repairs and adjustments her car may require on the long trip.

SPITZER IS A SPECTATOR.

Star Witness in Sugar Frauds Trial Sits in Court.

New York, June 1.—Oliver Spitzer, the former dock superintendent of the American Sugar Refining company, upon whose shoulders the three remaining defendants of the sugar conspiracy trial declare all the blame for the underweighing frauds rests, was an interested listener today to the testimony of Ernest W. Gerbracht, superintendent of the sugar company Williamsburg refinery.

The defense of Charles R. Heike, secretary of the company, is to follow that of Gerbracht.

Gerbracht testified that up to the time of the death of the late H. O. Havemeyer, Gerbracht's reports of refinery operations were made to Havemeyer in person. Gerbracht's counsel sought to show by documents evidence that Havemeyer's supervision of refinery operations extended to minute details such as the appointment and removal of subordinates.

KISSED HUBBY GOOD NIGHT AND OUT SHE WENT

Noble Says His Wife Just Simple Left Him—Courts.

Louis Noble testified in the circuit court today in his divorce case against Bertha Noble that she simply told him good night something over two years ago and went out of the door and has since refused to live with him. He was living at the time in the same house with her mother, and she went back to her.

He said he did not mistreat her, always provided for her and could assign no reason for her departure other than that she said she could not stand him any longer and got out. The case was continued for further evidence.

Will Take a Change.

HIGH COST OF LIVING? NIX.

Use Canned Goods, Old Potatoes and Rice.

Chicago, June 1.—Live on canned goods, old potatoes and rice and laugh—if there is a laugh left in you—at the high cost of living.

This was the inference drawn today by spectators who heard the testimony of A. Johnson, grocer and butcher, given in the firemen arbitration proceedings. Mr. Johnson had enumerated butter, eggs, meat, new potatoes, apples, flour and bread among articles which have increased in price since 1907. Then he was asked if anything in his line had decreased. The witness scratched his head thoughtfully, and replied with the air of one searching deeply into the vaults of memory:

"Canned goods—hum-m let's see—yes, old potatoes and rice, too."

MICHIGAN MINERS STRIKE.

MIGHTY RUSH TO ALASKA.

Steamers for Early June Sailings Cannot Carry the Crowds.

Seattle, Wash., June 1.—Officials of companies operating steamships to Alaska points on the Behring sea estimate that 15,000 people will leave Seattle for Nome and St. Michaels on the early June sailings, drawn to the far north by the reports of rich discoveries in the Iditarod gold fields. The first regular liner to leave for Nome will sail from Seattle tomorrow and every berth has been sold weeks in advance.

Wealthy men have been compelled to take accommodations in the steerage and there is a waiting list at the steamship office larger than the combined capacity of the northbound steamers. So great is the rush to the north that passenger and freight officials of the Alaska steamship lines say the movement, which amounts to a stampede, has been equalled but once in the history of the north and that during the Klondyke rush thirteen years ago.

ADOPT REVISED PSALMS.

United Presbyterians Have Lively Time Over It.

Philadelphia, Pa., June 1.—A revised book of psalms was adopted at today's session of the general assembly of the United Presbyterian church after a spirited discussion. Rev. W. A. Campbell, of Mercer, Pa., led the opposition to the revised book. He said he had expected the revision committee to give the church the best version of the psalms the world has even seen in point of faithfulness and literary merit, but he added they have given the worst version ever seen. He said that if the new version were adopted no good reason could be given for remaining separate from the Presbyterian church.

SATAN HAD HOLD OF MAN AND MADE HIM STEAL

That's What He Said But Drug Tells a Different Tale.

When Charles Watson was arraigned in the city court today on the charge of stealing $3.20 from Arthur C. Pontius, of 540 Kinnaird avenue, he insisted that satan had hold of him and made him steal, but the presence of a box of morphine tablets in his pockets told a different story and the judge gave him $10 and costs and thirty days.

Watson came to town and called yesterday on Pontius at the office of the Fort Wayne and Wabash Valley Traction company and went with him to supper. He took a railroad ticket at the office to start with and then tried to steal everything in the Pontius home that was not nailed down. He took the money from Mrs. Pontius' purse and also took a ring which he was forced to give up.

The prisoner was evidently suffering from the continued use of morphine and could not give a good account of a number of small articles he had in his pocket. He had express receipts from two packages he had shipped to Geneva. He knew Pontius there and was invited last night to his house for supper.

The Other Cases.

Jeff Myers drew $5 and costs for drunkenness and the same fine was given Eugene Evans, a negro cook, found on the street with William Guth last night. Both were drunk and insulting and Guth got $1 and costs.

THE NEWS OF FORT WAYNE'S NEIGHBORS

FAMOUS LAW CASE FINALLY SETTLED

The John Horsley Hayes Case Which Hung Fire in the Courts for Many Years.

Kendallville, Ind., June 1.—The famous John Horsley Hayes case, involving the ownership of a farm of 160 acres about five miles northeast of this city, commonly known as the Kimmel farm, has finally been settled by compromise, H. S. Kimmel buying out the interests of the Hayes heirs.

The case is one which has hung fire in the courts for many years and caused Mr. Kimmel, the local laundryman, no end of worry. He had purchased the farm in good faith forty-three years ago, but it seems that on account of a clause in the will of the late John Horsley his grandson, John Horsley Hayes, who sold the property to Kimmel, had no right to sell it if he left any children.

The fact of it was, however, that he sold the farm before he was even married. Later he married and left children and after his death his heirs came upon Kimmel for the property. In the meantime Kimmel had disposed of the farm in parcels to J. Hovater, G. E. Kimmel, Mrs. Anna Martz and A. S. Hill, giving them warranty deeds. When the heirs laid claim to the property, Mr. Kimmel stood a good chance to lose all.

The case was first thrashed out in the circuit court and was then taken to the appellate court where Kimmel won out. Then the heirs took it to the supreme court, where they got a favorable decision. Finally an agreement was reached whereby Kimmel bought back the interests of several of the parties to whom he had sold, and eventually also the heirs were paid a satisfactory sum by Kimmel. The whole affair is now believed to be settled and as soon as some minor details are closed, Kimmel will have a quit claim deed for the entire property.

WARREN HOME WILL BE STATE AFFAIR

The Three Methodist Conferences of State Will Join in Its Maintenance.

Huntington, Ind., June 1.—Although no official confirmation has been received at the Warren Old People's Home, it is understood that the two other Methodist conferences in the state have taken favorable action regarding the building of two more buildings at Warren and making the home a state affair. This action, if taken, will make the home one of the finest institutions in the state.

Some few weeks ago two representatives from the other conferences called at Warren and went over the situation thoroughly. They seemed favorably impressed with the prospects for a large institution on the site, and said they would take the matter back to their conferences. Since their departure, Rev. Lantis, superintendent of the home has received no official communication, but it has been stated on good authority that the report of favorable action by the conferences can be expected in the not distant future.

There are three conferences in the state—the North Indiana, the South Indiana, and the Southwestern Indiana. They have not at the present any arrangement such as has the North Indiana conference for taking care of their aged members. There are 258 acres at Warren, part being graded and sodded, and the rest in woods. Rev. Lantis, speaking of the possibilities of the other two buildings said Monday evening that the site is ideal, and that he is hoping that the other conferences will take favorable action.

DIED AT HER HOME.

Was Seized With Hemorrhage While Attending Church.

Warsaw, Ind., June 1.—Some of the metropolitan papers in recording the death of Mrs. Anna Williamson, of Burket, on Decoration day, treat it in a highly sensational manner, saying that she fell over dead on the grave just after placing flowers there. Such is not the case. Mrs. Williamson died at her own home, at the residence of Lew Eaton, with whom she had lived since the death of her husband.

Monday she attended the decoration services at Palestine. She had been at the cemetery and placed flowers on her husband's grave. Then she attended the memorial services at the Palestine church. While there she was seized with a violent fit of coughing and this caused a bursting of a blood vessel. She was removed to the Eaton home and there her death occurred. She was 50 years of age and is survived by five children.

Mr. Ellingham is the democratic candidate for secretary of state.

HUNTINGTON HOLDS SUSPICIOUS TRAMP

Police Authorities Believe He is a Much-Wanted Desperado—Investigating Case.

Huntington, Ind., June 1.—That Charles C. Luke, the stranger whom Pat McCarty took out of the Harrell barn in Dallas township, Sunday, may be a much wanted desperado is the belief of the authorities today and an effort will be made to make the bond for his offenses so heavy that he nacnot get out of town before a thorough investigation of his case can be made. His evident desire to go and his professed willingness to settle up almost any sort of a fine, in order to secure his liberty at once, cause the officers to suspect that he is playing a deeper game than they know.

His whole bearing, clothing and actions are out of keeping with those of a man who would be carrying $170 in gold. The money itself, the only thing of great value found on him, was wrapped up in paper and was of that rusty dull appearance which seemed to indicate that it had been hidden in the ground. The fact that his money was all in gold, the easiest to carry and dispose of, and that a large and villainous looking revolver was the only other thing of value on his person, leads to the conclusion that he may be a much wanted burglar or safe cracksman.

Sheriff P. M. McCarty has telephoned to the sheriff of Ashtabula county, Ohio, inquiring the man's identity. The sheriff in Ohio telephoned that he knew people of that name, but as they lived fifteen miles from the county seat, it would require some time to find them.

CANAL PROJECT HIT.

The Michigan and Erie deep waterway project—the Fort Wayne ship canal—has for the present been blown up. There will be no appropriation by the present session of congress to make a preliminary survey. This developed yesterday in the conference on the rivers and harbors bill, when all provision for continuance of the national waterways commission was cut out and with it provision for a survey of the lake-to-lake canal.

For some months it has been increasingly evident that the Fort Wayne canal project was in Jericho. Consideration of the measure in the house went along before the rivers and harbors committee until the psychological moment had arrived and it was given a quieting draught. The committee that had been hearing the project decided that the measure had been presented to and entertained by the wrong body and it was sent to another committee. That was the fate of the project in the house. Senator Beveridge charged himself with the task of saving the project in the senate. It appeared that he would succeed. The enterprise, so far as congress is concerned, has been launched upon a long, long sleep.

That there is in congress an organized and potent hostility to this and other waterway projects is clear. The cheap trickery employed against Congressman Cline, of this district, and the Fort Wayne gentlemen who went to Washington in behalf of the Erie and Michigan canal was of a sort that the members of the rivers and harbors committee should be shamed by when they think of it.

The next congress will offer better opportunity than the one now in session. A large number of the standpat, reactionary element will not be seen there when the 62d congress convenes. There will be a more ready and more militant spirit of progress and a better feeling for the great conservation policies. The congress of the United States is now in a transition period. Perhaps too much should not be expected. But Fort Wayne is completely justified in feeling as sore as she likes over the fate of the canal bill.

The senate insurgents believe they have for the present done enough to the railroad bill and announce a readiness to support the measure as it now stands. They want it well understood, however, that it does not yet completely represent what they consider a square deal to the people, but admit that embodying as it does some of their own ideas and having lost as it has some of the provisions that Attorney General Wickersham and the Wall street magnates framed for the bill, it can now be voted for by self-respecting and consistent progressives. Senator Cummins, who made the announcement to the senate on behalf of his insurgent colleagues, predicted that there would come a time when those who were responsible for its place in the original bill and who supported it would be reproached by the iniquitous section 7. However, the railroad bill is undeniably vastly better than it was or the insurgents would not agree to support it. They made a game and honest fight and in large part they won it.

President Taft will not go to New York to join in the reception of Colonel Roosevelt. He is dated for a speech at the commencement of a young ladies' college on the day of the rough rider's arrival. There is a better reason than that for his not going and it does not apply specially to New York and to Colonel Roosevelt. It is time for the president to begin to get in practice of not going—so much, that is.

Twenty-five railroads in a conspiracy to hold-up the people of the country is the charge the federal government has brought and upon which it bases a prayer for an injunction. It is a very shocking accusation and will vastly astonish multitudes who have never believed and will not be convinced that railway corporations on any account would be guilty of the like.

Indianapolis has just held a great racing meet for automobiles in which world's records were broken and not a life was sacrificed in the doing of it. The inaugural meet on the Indianapolis track was marked by such wholesale sacrifice of blood as sickened the town and made the future of the racing enterprise there seem rather problematical.

It is the desire of Theodore to be useful wherever he goes and he is trying to help England get rid of her "awful way of doing business," and to get over the mistake of still thinking "her empire still is the Strand and Holburn Hill." That Guild hall speech will help some surely.

Curtiss contemplates a flight from New York to Chicago. Doubtless he will undertake it and if he does will accomplish it. Will somebody just chase one of the Wright boys up into the air for something new? Whatever shall be the chief glory of aviation it should be won by a Wright.

Here now is the government butting into the private affairs of the railroads with a writ of injunction. Anyway, it's refreshing to see a railroad as the receiving end of that kind of treatment. It's unique.

They have been having nice snow storms and pleasant blizzards to the north of us in Michigan. These things are June novelties that will make no one jealous of Michigan.

Track elevation is to start—start, mind you—move, go forward, get up. And it is only five or six years ago that the project was launched.

Congress did not do much more to our canal project than might very reasonably have been expected of a congress like this.

INVESTIGATING A DEATH.

Man's Demise Brings Out Facts of a Secret Marriage.

New York, June 1.—The death in Yonkers of Edward F. Hollister, of Tremont, caused Coroner Iles today to order an investigation. Hollister's death brought to light a secret marriage two years ago. The widow was Mrs. Alethe Knickerbocker Raymond, grand-daughter of the late Wilson D. McDonald, the sculptor. Mrs. Hollister, who is but 23 years of age, married Hollister October 10, 1908, but had never lived with him, the widow explaining the wedding was a means of binding a companionship and that the couple had no intention of living as husband and wife until Hollister's fortune was retrieved. Hollister was taken ill May 21 and the case was perplexing. The physician who performed an autopsy reported that death was due to natural causes. The undetermined nature of the malady, caused Coroner Iles to order an inquest.

CANAL PLAN GETS A KNOCK-OUT BLOW IN REPORT

Beveridge Resolution Was Stricken from Rivers and Harbors Bill.

Washington, June 1.—The Indiana ship canal project was given a knock-out blow yesterday when the conferees on the river and harbor bill struck out of the bill all reference to the subject. The conference report was presented to the senate as the last business of the afternoon and it went over without being acted upon.

The provision of the bill that was struck out was section 4, which sought to continue the life of the national waterways commission from March 4, 1911, until March 4, 1913, and provided among the commission's other duties, the following:

"Said commission is also authorized and directed to make a preliminary examination and investigation and report upon the advisability and feasibility of the following artificial waterways:

"1. From the Ohio river, at at point near Pittsburg, to Lake Erie.

"2. From Lake Erie, by way of the Maumee river and Fort Wayne, or other direct and feasible route, to the southerly end of Lake Michigan."

Taken as Get-Back at Burton.

The conference report leaves nothing remaining in reference to the Indiana ship canal.

From the beginning of the agitation for the Indiana ship canal before congress certain influential representatives and senators have played a game of hocuspocus with it. Its final elimination in the conference report grew out of an effort of the enemies of Senator Burton, of Ohio, to "get even" with that statesman for his aggressive opposition to many of the features of the river and harbor bill.

Burton, who formerly was chairman of the house rivers and harbors committee, made a two days' speech in which he laid bare the bad features of the bill that were put in for political expediency to aid congressmen. He even went so far as to urge President Taft to veto the bill.

This attitude made Burton very unpopular and the conference committee saw a chance to "even up" by striking out the provision extending the life of the national waterways commission. Burton is chairman of the commission and it is his pet hobby.

Burton was very angry last night. He declared that the conference report had been agreed to in an unprecedented way without consulting members of the committee, and he served notice that he will make war on the adoption of the conference report. Nevertheless its adoption is certain.

The bill as it comes from the conferees contains intact the provisions for a survey of the Wabash river from its mouth to Terre Haute, with a special report as to improving that river up to Mt. Carmel by dredging.

ADVANCE COMES TO LINCOLN LIFE OFFICIAL

T. F. Ruhland Will Be Second Vice President of Minneapolis Company

Theodore F. Ruhland, who has held the position of assistant secretary and superintendent of agencies of the Lincoln Life for the past four years, has received splendid acknowledgment of his ability in the life insurance work by the tender to him of the position of second vice president and superintendent of agencies of The Indemnity Life and Accident Insurance company, a strong stock company of Minneapolis, Minn.

The inducements offered to Mr. Ruhland were so very attractive that he could not, in fairness to his own interests and those of his family, afford to let it pass. Mr. Ruhland has been a valued employe of the Lincoln Life, and the executive committee of the company yesterday accepted his resignation with a great deal of regret. Walter T. Shepard, of Newark, N. J., has been selected to succeed Mr. Ruhland, whose resignation will take effect just as soon as Mr. Shepard can get his new duties well in hand.

Mr. Ruhland and his family will move to Minneapolis within a short time.

Twelfth district bankers have selected June 21 as the date for their group meeting in Fort Wayne.

NEW FREIGHT OFFICER.

nsy to Establish Division Agency in Fort Wayne.

he announcement last week that liam Borner was to pass to the pen- list of the Pennsylvania seems to e been incorrect. Mr. Borner is sixty-eight years old and is quite ve and eminently capable of tak- care of all freight business and not be retired until he reaches the when the rules will compel him to o. The Cincinnati Enquirer makes following statement concerning the ter, which is probably correct: Announcement will be made in a or two of a number of changes and motions in the freight traffic de- tment of the Pennsylvania Railroad company, and the P., C., C. and St. L. The position of assistant to the freight traffic manager has been created, and William Borner, general western ight agent of the Pennsylvania, will named to fill the new position. His adquarters will be at Chicago. G. S. McCabe, general western ight agent of the P., C., C. and St. will be promoted by being trans- red to the Pennsylvania as succes- to Mr. Borner, and J. E. Weller, vision freight agent at Pittsburg, es Mr. McCabe's place at Chicago. T. Johnston, who has been chief rk to Freight Traffic Manager Wil- m Hodgdon, will be appointed divi- n freight agent at Pittsburg. "A new division freight agency is to created at Fort Wayne by the Penn- lvania, and E. T. Wood, chief clerk General Western Freight Agent rner at Chicago, has been selected the post. This leaves two impor- nt and desirable positions to be filled, e chief clerkships in the offices of ight traffic manager and assistant the freight traffic manager."

NEW DYE HOUSE.

ayne Knitting Mills to Build Big Addition.

Yesterday afternoon John Brown as awarded a contract to erect a ree story brick building, with con- ete floors and partitions and fire- oof throughout, at the Knitting lls, to be used for a dye house. The ilding will occupy the site of the esent one story dye house, which ll be torn down to make room for it. d it will be 40x121 feet in size and ll cost about $20,000. It is to be mpleted and ready for occupancy thin 100 days from today and Con- ctor Brown will put all the men at rk upon it he can handle to advant- e. This will be the third big im- ovement made by the Knitting mills mpany since 1908 and it will bring the total amount of investment in buildings and additional machinery for that period up to and beyond the $100,- 000 mark.

SPECIAL TRAIN SATURDAY.

Pennsy and G. R. & I. Will Handle Party to Winona.

A nine car train, made up of cars from various lines and directions as- sembled at Richmond next Saturday morning will run over the G. R. & I. to this city and from Fort Wayne to Winona over the Pennsylvania, carry- ing several hundred delegates to the Brothers' church meeting at Winona, which will be held there commencing Sunday. The G. R. & I. will also have a special train tomorrow to bring down from Howe about 200 students of the Howe Military academy, who will be going home for the summer vacation. Most of these students will leave the city over the Pennsylvania, Nickel Plate and Wabash.

TO HAVE TWO TRAINS.

Frank P. Parnin, traveling passen- ger agent of the Nickel Plate, has de- cided that it will require two trains to handle the excursionists to Michi- gan City June 5 and he has made ar- rangements in accordance with that belief. The South Whitley Greens, who play the Michigan City team on that occasion, assert that they will have a party of upwards of 400 from South Whitley and North Manchester, to say nothing of the many farmers and other people who will take in the excursion for the ride and sight-see- ing features alone. Mr. Parnin says that inquiries at Fort Wayne and else- where along the line indicate that many excursionists will come from those stations also and he is figuring on upwards of 900 people.

TWO MAMMOTH SEA TURTLES.

Two mammoth sea turtles, one weighing 340 and the other 270 pounds, attracted considerable atten- tion at the Pennsylvania depot this morning. They were en route to Kal- amazoo, being shipped to A. J. Wood, the proprietor of a hotel at a summer resort there, and they came from Bal- timore. Each was alive, uncrated and vicious and the express and baggage- men had trouble in getting them off a Pennsylvania train and in a Grand Rapids car. One of the turtles made a lunge at Fred Such, who was assist- ing in handling it, and carried away a big section of his trouser leg. It re- quired four men to handle the tur- tles.

NEW SHOP TRACK.

A big crane and some sheds are be- ing moved just east of the Wabash shops to make room for a new lead track to the round house and the back shops, for use when the work of ele- vating the main track is taken up. The lead track will be what is now the repair track at the car shop, which will be moved over and extended, and from it will be numerous spurs branching off toward the north on which to place cars loaded with ma- terial. Eight car loads of piling to be used in elevation work arrived this morning and will be unloaded at a con- venient place. The Wabash is nearly ready for work on the main tracks and will get at it in a few days.

VISITED FORMER SHOPMATES.

Yesterday Theodore Homer, of Lit- tle Rock, Ark., an engineer on the Mis- souria Pacific road, called at the Penn- sylvania copper and tin shop and had pleasant chats with some of the old employes there. Twenty-two years ago Engineer Homer was a helper in the tin department of that shop, and he called there to see the men who were associates then. He found quite a number among them being Daniel Pet- gen, the foreman; William Neizer, Fred G. Rothenberger, A. J. Wefel, F. J. Ruch and Joseph Kinkade. The lat- ter was Mr. Homer's roommate for sev- eral months twenty-two years ago. Mrs. Homer is here with her husband.

JUMPED AND WAS INJURED.

John Pierce, a farmer residing along the Lake Erie and Western road, a short distance from Bluffton, sustain- ed concussion of the brain Monday by falling when he attempted to jump from a freight train in that city. S. S. S. CURES ECZEMA, ACNE, TETTER, ETC.

Eczema, Acne, Tetter, Salt Rheum, etc. are simply the ulceration of skin tissues, caused by humors and acids in the blood. The circulation has become infected with impurities which are being constantly deposited into the pores and glands of the cuticle, and a continual state of inflammation and irritation is thus kept up. Just as long as these humors and acids remain in the circulation the skin affection will continue. The trouble may be temporarily soothed and covered over with external applications, but such treatment does not make the blood any purer, and can therefore be of no permanent benefit. To cure any skin disease it is necessary to purify the blood—remove the cause. S. S. S. Cures Eczema, Acne, Tetter, Salt Rheum, pimples, eruptions, etc. because it is the greatest of all blood purifiers. It goes into the circulation and drives out every humor, acid or impurity. It cools the feverish blood and allows it to furnish the skin with healthy nourishment, instead of fiery, acrid deposits. S. S. S. is purely vegetable, mild and pleasant in its action, it does not cure skin disease by forcing all the impurity to the surface, but stimulates the excretory members to carry it off through the natural avenues. If you have any skin affection you can not do better than purify your blood with S. S. S. It will assist nature in quickly restoring the smooth, even texture of the cuticle, and the cure will be permanent and lasting. Book on Skin Diseases free to all who write.

FORT WAYNE TO LOSE MRS. RUHLAND.

Well Known Pianist and Teacher Will Move to Minneapolis August 1.

Music people and many other friends in social circles learn with regret today of the intention of Mrs. Anna Siboni Ruhland to leave the ranks of the teaching profession and to move to Minneapolis. The cause of this city's losing her foremost teacher in music and the European School of Music its founder and head, is a change in the business location of Mr. Ruhland. The first of July Mr. Ruhland will move to Minneapolis where he has just accepted a position, and his family, consisting of a son, Eric, and a daughter, Miss Thyra, besides his wife, will join him a month later. Mrs. Ruhland has been identified with musical life in Fort Wayne for many years. She came here direct from her home in Copenhagen when quite a young woman and was soon recognized a pianiste of no ordinary degree of ability or accomplishment. Her marriage to Theodore F. Ruhland did not deter her from her musical progress and her own talent is keenly manifested in her daughter, Miss Thyra, who though early in her 'teens, has already made marked advancement as a student at the piano. Mrs. Ruhland has been a member of the Morning Musical society since its beginning, and her sincere work in behalf of the society can not be truly estimated. It is mainly through the efforts of Mrs. Ruhland that this city has been able to hear many of its best concerts, musical organizations like the Thomas and New York Symphony orchestras and artists like Godowsky, Fannie Bloomfield Zeisler, Theresa Carreno, Gabrilovitsch and Petschnikoff. It is stated that the European School of Music will be continued after Mrs. Ruhland leaves the city, but under whose directorship is not yet decided.

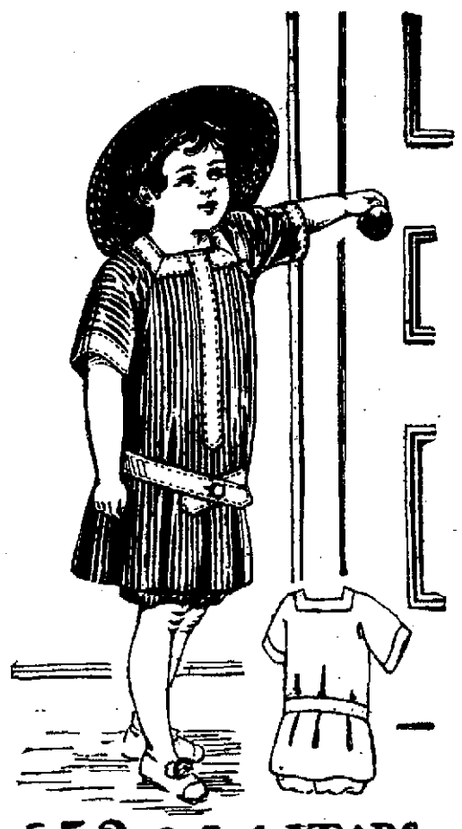
WOMAN'S LEAGUE OFFICERS.

The annual meeting of the Woman's league was held in the public library building yesterday and interesting reports of the work of the several departments were given. Mrs. O. N. Guldlin, presided at the meeting. J. N. Study gave a short address on vacation schools, their object and the necessity which the future would bring for them in this city. He stated that the future would also bring about a change in the school year, that is the division of the year into four sections of time which would permit a child to go to school at any time, instead of during a school year of nine months as is now the custom. Mrs. J. V. Hunter read an interesting paper on child labor. The election of officers resulted in the selection of Mrs. C. M. Dawson, president; Miss Margaret Smith, first vice president; Mrs. John Evans, second vice; Mrs. James B. Harper, third vice; Mrs. Burns, recording secretary; Mrs. William Morris, corresponding secretary; Mrs. Charles Stockbridge, federation secretary; Mrs. Joseph Straughn, treasurer; Mrs. Aaron Rothschild, auditor. The six department chairmen will be chosen by the newly elected president.

COMFORTABLE SUIT FOR PLAY.

By MRS. JANE FORD.



652-2-3-4 YEARS.

Children should be provided with a number of practical suits for wear during play hours, and for such purpose the model shown is being used instead of rompers this season.

It consists of bloomers and a jumper cut in one with the sleeves.

The pattern for it may be secured in three sizes that will fit any child between the ages of two and five years.

To copy it for a child three years old will require two and five-eighths yards of goods twenty-seven inches wide or two and one-quarter yards thirty-six inches in width.

The bloomers are made with ordinary seams and the edges overcast. A narrow hem or facing finishes the legs and waist, through which is run an elastic that adjusts the fulness.

The seams of the jumper should be felled and the lower edges hemmed. The closing should be finished with a facing and the trimming applied to the edge of the neck and sleeves; the belt should be of the material.

To complete the neck and sleeves with the least work the trimming should take the place of a facing. To do this make a one-quarter inch turn of the goods on the right side of the garment, and after basting the edge in place arrange the trimming and stitch both edges.

When bands of embroidery are employed the corners should be mitered to fit the square neck.

An equally pretty finish and one that will not require much time, if heavy mercerized cotton is used, can be made by buttonhole scalloping the sleeves and yoke. The front closing may be treated in the same way.

This little frock is as simple and easy to make as the ordinary rompers and is so much more attractive in appearance that there are few mothers who will not prefer it, and if developed in plain colored linens, plaid or striped ginghams, chambray, percale, seersucker, pongee or kindergarten cloth, and trimmed with wash braid or bands of embroidery, the garment will be pretty.

IN THE THEATERS

A MYSTERY SOLVED.

How Miss Billie Burke Got Her Name—At Majestic Tonight.

Once upon a time there was a team of comedians, Burke and Andrews, who had a bucking donkey and were the delight of the patrons of vaudeville all over this country. The Burke of that team—William E. Burke was the way he signed contracts, but the public knew him as Billy—was the father of Miss Billie Burke, one of the youngest and most popular stars in America, who comes to the Majestic tonight in "Mrs. Dot." The story goes that when Miss Billie was born her parents were bitterly disappointed because they had been hoping for a son. They had even picked out a name for him. He was to be William E. Jr., and Billy for short, just like his father. But a girl—well, the only thing to do was to christen her Ethelbertha and then forget it and always call her Billie. And that is what they did and that is how Miss Billie Burke comes by one of the catchiest names that was ever put on a three sheet.

TWO STARS IN NEW COMEDY.

Marguerite Clarke and Otis Harlan Next Monday Night in "Baby Mine."

Fort Wayne is to be given the first opportunity of seeing the new Princess theater, Chicago, production—"Baby Mine," a comedy by Margaret Mayo, the gifted young author of "Polly of the Circus." The new contribution to the gayety of the nation will be made known here in the Majestic theater next Monday night, and there will be two real stars at the head of the special cast which has been assembled for the all summer run in Chicago.

Marguerite Clarke, who was co-star with De Wolf Hopper in "Happyland" before she took the leadership of her own company in "The Wishing Ring," is one of the stars. She has been for a long time one of the greatest favorites in musical comedy, and her visit to Fort Wayne is a matter that ought to interest all admirers of dainty cleverness.

Otis Harlan is the other star. He hardly needs an introduction to theatergoers. His triumphs have been many since the days when he acted in the late Charles H. Hoyt's masterpiece, "A Black Sheep;" and his last appearance in this neighborhood was made in "A Broken Idol," which had a year's run in Chicago, with Harlan in the principal part.

THE LYRIC THEATER.

The show at the Lyric this week is one of the best that has ever been seen at this popular family theater and the way this theater has been crowded at every performance shows that the efforts of the management to please the people of Fort Wayne are not in vain. J. A. West & Co., the musical brownie, and Mike his singing wolf, are causing a lot of talk and still more thinking, the way this animal sings is marvelous and unbelievable. The Irish-American trio, premiere exponents of mirth and melody, are some singers and comedians, Harry Fetter, in "The City Physician," has an act that is a real novelty, Blanche Irwin, character comedienne, has a very pleasing voice and her appearance is neatness itself. The pictures close the show and these are the very best and latest subjects.

GIVES CHECK FOR $1,197.22.

Playgrounds' Profits from Benefit at Majestic.

A check for $1,197.22, representing the net proceeds of the benefit performances of "Forty-Five Minutes from Broadway," at the Majestic during the week of May 16, has been turned over to the Playgrounds' association by Treasurer Frank A. Biemer, of the Majestic theater. In addition to this, there is yet to be received the $100 donated by the Elks' lodge, and outstanding sums to be collected, ranging from $25 to $50, so that the total proceeds of the movement makes a very handsome sum for public playgrounds.

The executive board of the Playgrounds' association held a meeting late this afternoon at the public library to select a site for the new playground to be established at once.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all dealers.

ADDRESSED THE STUDENTS.

Rev. Dr. Morrissey Speaks at Central Catholic High School.

A thoughtful and highly instructive address was given before the student body at the Central Catholic high school on Tuesday. The speaker was V. Rev. Andrew Morrissey, C. S. C. of Notre Dame, provincial of the congregation of the Holy Cross. The eminent educator was heard with close interest and appreciation. He urged the students to have the welfare of their school at heart, proved that their success stood also for the success of the institution. He recommended an earnest co-operation with the efforts of the priests and brothers in charge, and bespoke his pleasure at the progress made during the past scholastic year. Father Morrissey for more than twelve years president of the University of Notre Dame, is thoroughly conversant with boy life and takes a deep interest in schools and students. He returned to the university this morning.

Crisp News of What's Doing in the Sporting World

Jimmy Burke Dislikes a Loafer and a Spendthrift

"You grab that check like you didn't have a cent left from last pay day. Guess you're all in, eh? You don't last always in this business, you know, and what are you going to do when you get out? You don't know anything else and I guess you want to drive a dray or peddle shoe strings."

Manager Jimmy Burke believes players ought to be provident and he dislikes a spendthrift and will not stand for a loafer on his team. He handed out this line of talk yesterday as the players got their salary checks, intending to impress all of his men with the necessity of saving their money.

"Put some of it way. You fellows are coming in this business and I'm going. I don't mean to brag but I can buy a pretty good-sized building with what I've saved out of the game, and when I have to quit I'll not have to pass the hat. Take care of yourselves and your money if you want to hold on in this business."

The Fort Wayne manager could offer no better example than himself of the wisdom of players preserving not only their cash but their playing strength. Fourteen years in the business finds him as full of ginger as he was at nineteen, pretty well fixed in the world's goods and with a keen enjoyment of his profession. He likes to play ball and he likes to play winning ball, and winning or losing he is always full of fight. His habits are good, his hours regular and he has always given employers his best services.

A few days ago one of the players who is not a bad fellow, but just a bit inclined to loaf if he is given an opportunity, failed to report at the club house one morning in disregard of the rule that requires all men to be there every morning at 10 o'clock. This same player came down in the afternoon complaining of a headache.

He made no move to dress and sat around until all the players had put on their uniforms and left him alone with the manager. The player sat on a stool with his head in his hands and moaned. As the manager started out he said: "Say, Jim, I don't believe I'll dress this afternoon. I'm feeling awful tough. I—"

"Well, I guess you will dress all right, and I'll guess again and guess you'll play ball, too, this afternoon. When you don't play on this team you don't draw any salary. See? Another thing. You didn't report this morning. Don't get it into your head that I overlook these little bets. You come down here every morning, just like the other players. It don't take you long to earn the good money in this business and it is better than shining up a dinner can every morning and chucking in some rye bread and cold ham and a piece of stale pie. When you work for me you'll earn your money. If I was as young as you are I'd be ashamed to say I was sick."

A few minutes later the player was out of the club house with his uniform, he has reported every morning since and has never uttered a complaint.

Local Fans Wouldn't Go See Base Ball Stars Here

Owen Bush and Bob Bescher Were Members of Teams in League That Went Up for the Want of Patronage.

Just s'posin' the announcement should be made that Detroit with Owen Bush and Cincinnati with Bob Bescher in their respective line-ups would play at the Fort Wayne ball park some fine day how many fans would go down and yell themselves hoarse and be proud of the fact that they knew these two youngsters when they were just breaking into the game?

Probably as many as could be crowded into the park without encroaching on the playing field, and yet four years ago there were not enough people in eight towns in Indiana, Ohio and Michigan sufficiently interested in these two baseball stars to keep alive a league in which the salary limit was about $75 a month per head, the traveling expenses were nominal and pay days happened only every now and then, and the one that should have been the last never happened at all.

Bush was looked over by the Dayton management in the spring of 1906 and as he was not ripe he was farmed to Marion, Ind., which had entered the Interstate league along with Anderson, Flint, Fort Wayne, Lima, Saginaw, Bay City and a few other towns. The organization was a firecracker affair and it went up the Fourth of July, which is annual blow-off day for poorly patronized minors. Dayton didn't think so awful much of Bush when the blow-off came and he was sent to South Bend and whether by purchase or just because he was too little to look good, South Bend got a clear title to his contract. The general public knows the rest. A year with South Bend, another with Indianapolis and then to the majors for a lad who in 1905 had to get somebody to show him how to put on a uniform. This same little fellow played some eight or ten games in Fort Wayne with Clarence Jessup's aggregation and nobody wanted to give up two bits to see him. Now thousands of people are giving up four times as much to watch him perform.

The same year Lima made a trip here and in the line-up was a long-legged youngster who did nothing but run. He ran in from the field and he ran out again. He ran to bat and when he got on bases he ran like blazes and was just simply a case of run, run all the time. He couldn't help it. Then Bade Myers who had taken the management at Dayton, got wise to the fact that there was a youngster in the league that looked good, and he traded Pat Wise and some cash to Lima for him. Jack Hendricks had him at Springfield early in the spring of 1908 and did not think enough of him to give him a trial and he jumped. From Dayton he went to Cincinnati and he promises to set the National league afire this year with his hitting, fielding and base running. Four years ago he was not good enough for an outfield composed of Jack Hendricks, who is not fast enough for the Central league; Joe Collins, who never got higher than the Southern association, and Benz, who never got any place. That lad was Bob Bescher.

Frankie Donahue, who was with Springfield at the same time that Bescher reported and asked for a job told the story of his turn down at Dayton a few days ago. He said:

"It was Bob's first time out," says Donahue. "He had just quit school at Notre Dame, and Springfield being close to his home at London, he came over there to try out in the outfield, as he wanted to become a ball player. Hendricks kept him on the bench nearly all spring and he broke into the game but once or twice. Collins, Benz, Stevens and Hendricks looked pretty good, and Jack had about decided to let Bob go without any further trial, when one night I met him down town and he told me he was going to jump.

"'Don't do that,' I told him. 'They are liable to blacklist you and you never will get a chance to play ball.'

"'There's no use in me staying here,' he replied. 'I couldn't break into that outfield with a jimmy, so I'm going to go.'

"Bob kept his word and didn't show up for practice the next day, and the next I heard of him he was hitting about .800 over at Lima."

STRENGTH OF FORT WAYNE TEAM TO BE TESTED

Month of June Will Give Good Line on Local Players.

If the Fort Wayne team is well up in the Central league race at the close of this month it will be a pennant contender through the remainder of the season.

This deduction is made from the fact that during June Fort Wayne will meet the present first division teams on the home lot and on foreign fields and if Burke's crew can make a good showing against South Bend, Terre Haute and Grand Rapids then the real playing strength of the organization will have been tested.

On form and taking into consideration conditions in the league South Bend ought to take first place in the next eight days. If the scheduled games are played the Benders will meet Zanesville and Wheeling in four games each and neither of these clubs has proven dangerous so far. Zanesville is badly crippled and when it can chuck its whole organization into the field it is not as strong as it was last season when Clyde Wares and Davey Lloyd were in the infield.

Wheeling apparently has a pretty fair club, but it has not struck its gait. Fort Wayne will open with Terre Haute which is in fourth place and playing good ball and will have the advantage of being on its own lot. Then four games with the Evansville team will follow and Aggie Grant is always a dangerous proposition.

Then the real fight will begin. Fort Wayne will return home to open a fight with South Bend and unless things go awry in the league within the next ten days the battles will be for first place to say nothing of blood. In arranging the circuit the league directors have endeavored to make Fort Wayne and Dayton rival clubs. This can't be done.

Every real fan in Fort Wayne remembers the battles of the two first years of the Central league when Bade Myers fought Aggie Grant every inch of the route and right down to the wire and copped two pennants in the last four games of the season. South Bend sent up a yell about being robbed and jobbed and all that sort of thing and since then there has been a strong rivalry between the two and Jack Hendricks was urged to beat South Bend whether he won the pennant or not.

If the two teams come back hooked up for first place there will be some battles. Eddie Wheeler has a good club and is a fine general, which makes it all the better. Following the games with South Bend Fort Wayne will meet Grand Rapids and Terre Haute here and will then have played every club in the league at home and abroad, and a good position at the end of the month means a fight for the pennant.

SHOP LEAGUE NOTES.

At a meeting last night protested games were awarded to the Knott-Van Arnam team over the Pennsylvania and the Packards were given a game over the Bass club on a protest.

A list of awards has been formulated for players making the best showing. The team finishing first will be awarded $25; second, $20; third, $15, and fourth, $10. Five dollars will be given to the pitcher winning the greatest number of games, $5.00 to the player in at least twelve games with the highest batting average, $5.00 for the player stealing the greatest number of bases, and $5.00 for the player with the best fielding average. Several other prizes will be awarded players and teams making the best showing, these being donated by local merchants. The Smith Hardware company will present the winning team with a loving cup.

TIDBITS OF SPORTING NEWS

Wichita bumped Harry Hammond so hard in the third inning of the game at Denver yesterday that he was routed. Denver lost the game.

Mark Campbell is about ready to join the Zanesville club after his injury and Ned Crowder will be back in the game by the first of next week.

Bade Myers shook up his Quincy batting list yesterday and with Joe Jerger pitching he won a game. "Skeeter" Hartman and "Pep" Clark got doubles in the last inning and won the game.

Ed Asher has been saved for the opening game against Fort Wayne at Terre Haute, as he is going in good shape and is looked upon as the best man to defeat the league leaders. He was never very strong against Fort Wayne.

Suttles, who played with Fort Wayne in the interstate association and who has played with a number of independent teams in this vicinity, has been appointed manager of the Clinton club of the Illinois-Missouri league.

Returns from Evansville indicate that Grant and his team are popular down there. When the city turns out 3,500 to see two games with the team down around the bottom things are looking up down on the river.

Bisland has not recovered from the soreness in his legs that affected his playing here with Wheeling and it is believed that what was thought to be Charley horse is nothing more or less than rheumatism.

School Teacher Bevan, who came here to rescue Marty Hogan's Zanesville team at one time, made four errors on four chances and struck out three times while he was delivering the only bit of succor he rendered, has been sent to the Blue Grass league in Kentucky.

Midge Craven has given Manager Eddie Wheeler, of the South Bend team, notice that he will quit the game just as soon as a new outfielder can be secured to take his place. He left yesterday with the team on its present trip and will stick until the man to succeed him has made good. An uncle has bought and equipped a cigar stand and pool room for him at Grand Rapids and he says the opportunity is too good to turn down for base ball.

ARE NOT DISCOURAGED.

Manager and Captain Sure the Shamrocks Will Win Out.

Although the Shamrocks have lost three out of the four games played since the opening of their regular season Manager Mart Cleary and Captain Jack Smith are not discouraged and both think the club will finish strong and make a good showing. Three years ago the team was in the same sort of a rut, but worked hard and won two-thirds of its games before the season closed.

Furl Larue will bring his Warsaw team here Sunday for a game and will have a hustling bunch behind him, including Jess Runser. Warsaw will bring along its own umpire and a double system will be used with Jim Connell working along side the visitor. Fort Wayne patrons will get a good chance to see the Shamrocks now as they will be at League park seven out of the next ten Sundays, and will play here on the Fourth of July.

POLE AFTER GOTCH'S TITLE IN BOUT TONIGHT

Champion Expects Hard Mat Battle With Big Foreigner.

Chicago, June 1.—Frank Gotch and Stanislaus Zbyszko will battle for the wrestling championship of the world at the Coliseum tonight. It is generally believed by the critics that the American will retain his laurels, but it is predicted he will have a hard fight to pin the giant Pole's shoulders to the mat twice. Few, outside of his enthusiastic countrymen, concede Zbyszko a chance of wrestling from Gotch the honor he won in defeating George Hackenschmidt in 1908 and which he has successfully defended since then. Zbyszko is admittedly the logical opponent for Gotch as he has emerged successfully from the informal elimination contest. He has defeated Yussif Mahmout, the challenger against Gotch last year, and practically all of the important wrestlers of the country.

Gotch and his opponent tonight have met once before, but in a handicap match. It was in Buffalo, and the terms of the match called for the American to throw the Pole twice in an hour. Gotch failed to get even one fall in the alloted time.

Dick Fleming, of Chicago, has been chosen as referee. Zbyszko made an effort to get a Pole to be allowed to act in that capacity, but his demands were refused. He will be allowed, however, to have a committee of his countrymen at the ring-side, and they will prepare a report of the match for general circulation throughout Europe, where Zbyszko is far better known than in this country.

NEGRO IS AFTER CORBETT.

Frames Reply to Charge That He Has a Yellow Streak.

San Francisco, June 1.—Jack Johnson's day off from hard training yesterday was spent in drawing up a written answer to James J. Corbett's statement regarding the negro champion's ring courage.

"In reply to James J. Corbett," his document begins, "I wish to state that it is not my purpose to enter into any maudlin combat with him. However, he who has been posing under the alias of 'Gentleman Jim' had started this campaign long before he reached San Francisco.

"Possibly he may believe that I will have to take such insults as he intimates on account of color. As to his assertion that I have a yellow streak, may be he is right. Still, no one has been able up to the present time to produce it."

Johnson tries to indicate Corbett showed cowardice in his meetings a decade ago with Tom Sharkey, and wants to know if Corbett's behavior in those set-tos would come "under the heading of 'yellow streak.'"

The statement concludes: "As to you coming to my quarters and boxing, I would be ashamed to ever offer you inducements after the expressions of many as to your shattered frame. In fact, if the truth were known you hardly scale the middle weight limit Now, I hope and trust this may appease your appetite for gallery playing, for which you are famed."

UMPIRE ELDRIDGE DISAPPEARED

Dr. Carson's New Indicator Man Had a Bad Day.

Dope Eldridge is on his way to the big leagues. Last year he served as an umpire in the Southern Michigan, a class D organization. This year he is working in the Central league, class B.

Dope is a student at the University of Michigan and was for a time managing editor of the Michigan Daily. He likes to boss an athletic contest, and has been the extra man in many western college football games, as well as head of the arbitration committee in many pastiming stunts about the state.

About a year ago Dope mysteriously disappeared directly after having officiated in a stormy session at Saginaw, the city where two Southern Michigan pennants have been won in a row.

There is a stubborn class of fans in Saginaw. They like to see their team win if it is playing good ball, and last year there was good ball.

Dope broke up a good contest on the home lot. He made a decision that must have been "rotten," as Chief of Police Kain led an angry mob on the field and told him so. The crowd was very emphatic. Dope didn't like their looks and made for the nearest piece of fence. He disappeared and took the first train back to Ann Arbor. He handed in his resignation to Secretary Percy Glass at once.

Eldridge's experiment in the Central league will be watched by a big bunch of fans in the Southern Michigan.—Detroit News.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., June 1.—Playing for a rally was the most popular game today in the wheat trade. Weather in the spring crop districts was not up to the standard set by the most captious, foreign markets had turned firm, and the disturbing May deal was finally a thing of the past. Announcement was made that all but five hundred thousand bushels of the bull leaders' holdings in the old crop months had been sold. Several strong firms showed themselves openly friendly to an upward turn, at least temporarily. Dealers taking the opposite side were scattered and had little backing in the news except the official crop report from Oklahoma, which, however, made a flattering exhibit. The opening was ⅛c to ⅝c up, with September typical of the whole, at 91¼c to 91¾c. That option later touched 91⅞c.

Cool temperatures in the corn belt caused buying on the part of commission houses. Frost was reported in Illinois. September opened ⅛c to ¼c higher at 58⅜c to 58½c, but reacted to 58⅛@58¼c.

Oats shorts were on the run, frightened by the strength of wheat and corn. September started a shade to ⅛@⅜c up at 35½c to 35¾c and steadied at 35½@35⅝c.

Because the hog market turned weak, there was quite a rush to sell provisions, but the resulting decline was somewhat overcome on the appearance of a little support. First prices were 2½c to 2½c off, with the September delivery at $21.62½ to $21.70 for pork, $12.15 to $12.20 for lard and $12.12½ for ribs.

STOCKS AND BONDS.

The Day on Wall Street.

New York, June 1.—Active unloading of stocks was resumed at the opening of the market today, resulting in violent declines, the higher range of the London quotations affording no advantage here. The western and Pacific railroad stocks were the most affected.

St. Paul fell 3, Atchison, Denver & Rio Grande and Iowa Central 2, Northern Pacific 1⅝, Union Pacific and Canadian Pacific 1⅜ and Baltimore & Ohio, New York Central, Great Northern preferred, Missouri Pacific, Kansas & Texas, Rock Island, Norfolk & Western and others a point or more.

With the exception of a few trivial rallies on buying for both accounts, the trend of prices was downward. The standard railroad stocks displayed the most active weakness. United States Steel showed some measure of resistance, although it lost a point in common with many other stocks. St. Paul broke 5⅝, Atchison and Union Pacific 3, Rock Island preferred 2¾, Baltimore & Ohio and Illinois Central 2½, Reading 2⅜, Atlantic Coast Line 2¼ and Great Northern preferred. Amalgamated Copper and Consolidated Gas 2 points.

The market was demoralized during the morning by the court injunction against the western trunk line freight rates, which were to have gone into effect today. Liquidation was not interrupted and prices melted away. St. Paul suffered a loss of 7⅛ points, Louisville & Nashville 4½, Union Pacific and Reading 4¾, Atchison and Denver & Rio Grande 4⅝, Baltimore & Ohio 3½ and Wabash 3⅜. Baltimore & Ohio preferred, the Pacifics and western railways generally, Pennsylvania, Amalgamated Copper, American Car and Consolidated Gas 3 to 3½. The first effective rally occurred about noon when the bears covered shorts. The rebound ran to a point in the extreme cases. Bonds were weak.

The market ruled pretty steady in volume. Central Railroad of New Jersey declined 5 points.

Fractional additions to the rally brought many of the important stocks up to 1 to 1½ points above their low prices of the morning, but the buying was not vigorous and there was an absence of the animation and excitement that attended the slump. Reading second preferred gave way 5 points and Westinghouse Electric 3½.

The market closed slightly irregular. The uncovered shorts began to find difficulty in securing stocks to cover shorts and they had to advance their bids. Reading and Wabash preferred rallied 3, Southern Pacific 2⅜, Rock Island 2⅜, Louisville & Nashville 2½, Union Pacific and Baltimore & Ohio, Atchison and Amalgamated Copper 2, Northern Pacific, Southern Railway preferred and Consolidated Gas 1⅝ and other active stocks 1 to 1½ points. There were some fresh recessions at the last.

ROOSEVELT IS THE GREATEST OF ALL OUR TIMES

William Allen White in Address Lauds the Ex-President.

New York, June 1.—"Mr. Roosevelt has inspired more men to righteousness than a millionaire could call forth with all the millions of Wall street," said William Allen White, editor of the Emporia (Kan.) Gazette, who spoke on "A Theory of Spiritual Progress" at Columbia university yesterday afternoon.

"This is not a material world," said Mr. White, "for the world's most permanent rewards are not material rewards. Pleasure is not happiness, nor is poverty misery. Happiness has as its chief ingredients usefulness.

"Consider that man as an individual is happy only as he is kind. Of course, it is impossible to say just what man is happy and what man is unhappy, but the approval of one's kind is probably one of the things that makes for happiness.

Is the Rich Man Happy?

"Who is surer of public approval than the generous adversary, the chivalrous foe, the kindly competitor? Is the rich man always praised? Does he not often drain a bitter cup? Is the powerful man sure of public acclaim in his mean use of power? Is the proud man encouraged in his pride? Is the brilliant man's achievement always sure of public approbation?

"'It pays to be decent,' is a proverb of the people. That means that the spiritual is dominant in a material world. The man who is ever looking for the main chance is the final loser of the game. Greed poisons itself and dies. The plutocrat is pulling against the current. Great wealth in and of itself today is often regarded by society as a handicap to a man or an institution.

Man's Field Is Unlimited.

"The good that money will do is limited. The good that a man may do is limited only by his talents. Perhaps Mr. Roosevelt is wrong in some of his tenets. But, right or wrong, he has inspired more men to righteousness in public life than a millionaire could call forth with all the millions of Wall street. And all the king's horses can't pull America back to the lower ideal of the last century. The gain is permanent.

"And the man who has promoted the progress of his country is manifestly exultant and happy, while those who have devoted their lives to games of greed before all the world are seeking happiness in mere pleasure. The spiritual world is no place for the dabbler.

"Louis XVI., without heart or bowels, lived at Versailles in the material world; and when his head rolled in the basket it was an addled tousled old head in the basket, nothing more. But John Brown's body paid the mortgage on 2,000,000 souls."

Miss Pearl Russell has been called to Columbus by news that her mother had fallen and sustained a fracture of the arm.

A "Free-gram" and the Good News It Contained

"I will be with you June 3rd and 4th. If you can notify the people by advertising, I will give you my best efforts while there. (Signed) "C. B. St. CLAIR."

Mr. St. Clair is the best demonstrator of the best sewing machine ever made—"The Free." He has held two extraordinarily successful demonstrations for us, and the above brief note was received from him yesterday. We are very pleased to announce this next demonstration for Friday and Saturday, and cordially invite every woman, whether she does her own sewing or not, to attend.

Some of the strongest Features of

The Free

A woman doesn't have to be a skilled mechanic to understand the splendid advantageous features the Free possesses over all other high-grade machines, such as the eight sets of Ball-Bearings,—the Rotoscillo movement,—the Automatic Shuttle Ejector,—the Rotary Spool Pin,—the Automatic Locking Drawers,—the Belt which can't come off,—the Reinforced Shuttle,—the Automatic Tension Release,—the Five Years' Insurance Policy, etc., etc.

These are the things which will be demonstrated by Mr. St. Clair, who operates the machine and produces some dainty bits of machine needle work that is most interesting.

Demonstration Friday and Saturday.

Another Week of the Special Course of Correct Corseting

So great has been the interest shown in the demonstration display of the justly celebrated "American Lady" Corsets that we have made special arrangements to have Mrs. Lake, the expert corsetiere, to continue the demonstration through this week.

During her stay, Mrs. Lake has proven to hundreds of women that the correct corset is half the battle of attaining a graceful figure. And these same women have found out the correct corset for them is the "American Lady"—a corset which in its infinite variety of beautiful models, when properly chosen, improves every figure, be it stout or slender.

Mrs. Lake's suggestions are invaluable to everyone who would make the most of her figure. The fittings are free and as they should be.

Every woman should take advantage of this special "American Lady" demonstration.
